

Day6 poll questions

```
int main()
{
    int i = -5;
    int k = i % 4;
    printf("%d\n", k);
}
```

- A. Compile time error
- B. -1
- C. 1
- D. None

Answer : B

```
int main()
{
    int i = 7;
    i = i / 4;
    printf("%d\n", i);
    return 0;
}
```

- A. Run time error
- B. 1.6
- C. 1
- D. Compile time error

Answer : C

which is correct with respect to data type?

- A. char > int > float
- B. int > char > float
- C. char < int < double
- D. double > char > int

Answer : C

what will be the output?

```
int main(void)
{
    signed char chr;
    chr=128;
    printf("%d",chr);
    return 0;
}
```

- A.0
- B.Depends on compiler
- C.-128
- D.128

Answer :C
