- 5. For automatic objects, constructors and destructors are called each time the objects
 - A. enter and leave scope
 - B. inherit parent class
 - C. are constructed
 - D. are destroyed

Answer: Option A Explanation:

- 6. Which constructor function is designed to copy objects of the same class type?
 - A. Create constructor
 - B. Object constructor
 - C. Dynamic constructor
 - D. Copy constructor

Answer: Option **D**

Explanation:
